

DAVID FORTUNA

SOFTWARE ENGINEER (PRODUCT-FOCUSED, FULL-STACK)

404 - 402 - 4264

dev@tunafortuna.com

Atlanta, GA

EDUCATION

BA PHILOSOPHY

BA RELIGION

University of Georgia

Athens, GA

2007 – 2011

SKILLS

Languages:

TypeScript, Go, Ruby,

Bash

Frontend:

React Native, React, Vue,

D3.js, Reanimated, Skia

Backend:

GraphQL, Ruby on Rails,

PostgreSQL,

Sequel(ORM)

DevOps:

Docker, Kubernetes,

GitHub Actions, Jenkins,

CI/CD

Data/Analytics:

Datadog, Google

Analytics, Segment

Testing: Detox (E2E)

Tools: Figma, Storybook

PROFILE

Product-minded software engineer with a focus on mobile and full-stack development. I work best at the intersection of engineering, design, and analytics—prototyping quickly, validating with data, and shipping improvements that meaningfully impact user experience and business outcomes. I enjoy owning problems end-to-end and building systems that enable teams to move faster.

EXPERIENCE

SENIOR SOFTWARE ENGINEER

GroundFloor | Nov 2021 – Present

- Prototyped and shipped core mobile experiences including an interactive earnings chart, custom currency input, and app-wide animation system using **D3.js**, **Skia**, and **React Native Reanimated**, improving usability and engagement.
- Collaborated closely with design through live pairing sessions and rapid prototyping, shortening the design → development cycle and enabling faster iteration.
- Synced **Figma** design constants with application code, reducing UI inconsistencies and cutting development time.
- Leveraged **Datadog** observability and session replay to analyze user journeys and identify friction points.
- Partnered with marketing and affiliate teams to implement and validate **AppsFlyer** attribution tracking, improving visibility into user acquisition channels and campaign performance.
- Translated analytics and attribution data into actionable product insights, helping inform feature prioritization and UX improvements.
- Built and maintained **CI/CD** pipelines (**GitHub Actions**, **Detox**), reducing release time from ~3 hours to ~15 minutes.
- Maintained <1% **crash rate** through monitoring, alerting, and rapid issue resolution.
- Delivered full-stack features across **React Native**, **Vue**, **GraphQL**, **Ruby on Rails**, **PostgreSQL**, including a multi-item checkout system enabling faster product launches.
- Refactored GraphQL integrations into reusable services and improved SQL views/functions for data consistency.
- Investigated and resolved cross-platform discrepancies across frontend, API, and

CERTIFICATES

Frontend Web UI

Frameworks and Tools:

(with Honors)

-Coursera

2019

Advanced Google

Analytics

-Google

2020

database layers.

- Supported growth from 0 → ~20,000 monthly mobile sessions.
- Reduced supply chain risk by resolving 20+ dependency vulnerabilities.
- Built internal automation tools (Figma, Jira, GitHub integrations) to streamline workflows.
- Founded a coding club for middle school students, fostering early interest in software development and mentorship.

UI AND SEO TECHNICAL SUPPORT

Perfect Pitch Concepts | Jan 2017 – 2021

- Improved SEO performance using Google Search Console and Moz, identifying backlink opportunities and resolving crawl errors.
- Optimized metadata, sitemap structure, and page performance (TTFB).
- Maintained WordPress sites with cross-browser/device compatibility.
- Used Google Analytics and Ads data to identify high-bounce pages and improve user experience.
- Translated SEO and analytics insights into UI and content improvements.

FIBER OPTIC TECHNICIAN

Bazemore Fiber Optics | 2019 – 2020

- Prepare and splice 12 ribbon fiber cables utilising the Fujikura 90R splicer
- Administer and analyse Optical Time Domain Refractometer (OTDR) reports to test fiber for breaks, bends and weak splices

MUSICIAN/OWNER

Family and Friends LLC | 2013 – Present

- Collaborate towards creation of new music, social media strategy, and artistic direction
- Manage creative direction and logistical choices in conjunction with Management, PR, and Booking teams to create art and branding for album releases
- Manage tax records and book keeping for a startup LLC
